6 good reasons for 100 % satisfaction

Satisfied employees

Employee satisfaction starts with the clothes. That's why our workwear is stylish, comfortable and has many refined details especially for the gastronomy and hotel business. Your employees will feel good and delight your guests with excellent service.

One brand, as individual as you

Whether a hip burger restaurant, an elegant hotel or a rustic country inn: With a great variety of colors and countless possible combinations, we give your employees an individual and uniform look.

Customizing

With your logo on your working clothes, you create a high recognition value at your guests and a team feeling among your employees. We are happy to personalize our working clothes for you.

WERIN® TEC - the revolution of well-being

The difference is in the detail. Our own functional material WERIN® TEC is lightweight, comfortable, breathable and cool. Summarized: WERIN® TEC is the fabric that makes maximum performance possible.

Fair return service

We are proud of our low return rates. They show that we fulfill our quality promise. If you are still not satisfied, you can exchange or return your clothes.

Large sizes

We think big. That's why our clothes are also available in large sizes. The price stays small anyway, as all sizes cost the same.

How the JOBELINE styles are created

For 2020 we have, again, developed lots of new looks for you. We visited trade fairs, restaurants and kitchens all over Europe and tracked down current trends and new functionalities for you.

Always on the pulse of the gastronomy scene.

We get our inspiration from trade and fashion fairs as well as in everyday gastronomy throughout Europe. On this basis, we develop our styles and decide for materials, colors and details.

Easy-care wearing comfort.

We always develop fits and sizes to meet our customers' needs. Particularly important: Our demands on workmanship, material, functionality and care properties.

Put to the acid test.

In addition to washing and laboratory tests, the products also have to pass a practical test in everyday work. Selected customers check our products in the gastronomy everyday. The clothing will be only produced if everyone is satisfied.

Our quality standard.

All products are checked during at least one or two sample rounds. We check the fit on our fit models and check all product details.

► Chef jacket Advanced p. 99

Functional materials.

Only the ones who feel good, have power for working in the kitchen and with guests. That is why we develop materials exclusively for you. For instance, our functional fabric **WERIN® TEC** and **WERIN® TEC LIGHT** for chef jackets – with cooling effect and fast drying surface (more information at www.werin-tec.de) or polo shirts with **Sanitized® hygiene function** for top performance in service (page 50/51).

Be inspired!

Lots of pages with inspiration and most modern styles for your crew. Additionally included: Many tips and attractive complete outfits!

LIKE THIS, IT FITS FOR SURE!

In the gastronomy everyday, it is particularly important that the clothes fit properly. Nothing should pinch, tweak or distract from work. It also depends on the fit of shirts, blouses or T-shirts. Whether Slim fit or Regular fit: Choose the one that fits you and your employees best. Thus, you can completely concentrate on your guests.

SLIM FIT

Slim Fit is a very fashionable and figure-hugging fit. Often, these clothes have a waisted cut or are generally narrower in cut. These styles are great for people who prefer a tight fit.

Women

Men

REGULAR FIT

Regular Fit is a comfortable, only slightly waisted or straight cut fit. Thus, these clothes are suitable for every type of figure. The ones who prefer classic styles, are absolutely right with this fit.

A chef trousers needs to be one thing above all: Comfortable. Because only if nothing tweaks or pinches, you can fully concentrate on your work. The fit of the trousers is the most important thing. Of course, you want to enjoy your new JOBELINE products for a long time. That's exactly what we want, too. That's why we do not take every product into our range. Any product must provide highest quality. In order to guarantee that, we constantly check our high quality criteria and standards.

And you can also do something: Please note the washing and care instructions as well as the indicated maximum temperatures. Many JOBELINE products are washable at 60 °C, sometimes even boil-proof and chlorine resistant, depending on the indication in the textile. These temperatures keep your laundry clean and hygienic.

Hardly anything is as annoying as white shirts that are suddenly pink. That is why it is not only important in gastronomy to sort your laundry and wash similar colors together. Never mix white laundry with colored laundry. Do not put too much laundry in your washing machine. This helps you to avoid unnecessary wrinkling and can often save you from ironing. For colored laundry use a detergent without bleach. Quite normal and no cause for concern: All products can shrink up to 3%.

Do you need more information about washing and care? Have a look at www.em-group.com.

Tell us which measure you need - our alteration service would be glad to fulfill your wishes.

This service is feasible at many items within ten days at a low price.

We shall select the mode of dispatch and the kind of packaging according to our best judgement. Unless otherwise agreed, goods shall be delivered upon receipt of payment ex our warehouse to the delivery address specified by you. With regard to the dispatch of goods, any delivery period or delivery date shall refer to the time of hand-over to the carrier, haulage contractor or other third party engaged by us for shipment. Although, in principle, we make delivery to any place in the world, we reserve the right to decide on the delivery of goods ordered in each particular case. We shall not be liable for any inability to deliver or any delay of delivery where this is caused by force majeure or any other circumstance which was unforeseeable at the time the contract was concluded. We shall be entitled to rescind the contract if such circumstances make delivery or service provision by us substantially difficult or impossible. Where such impediment is just of a temporary nature, the delivery and service provision deadlines shall be extended accordingly. We shall be entitled to make partial delivery if you can use the part of the delivery supplied to you in accordance with the contractual purpose, this does not cause any unacceptable additional expense to you and delivery of the remaining

You are obligated to inspect the goods for quality defects and incorrect quantity without delay and with due diligence and notify us of any apparent defects within seven days of receipt of the goods. It shall be sufficient if the notice of defects is dispatched within the time limit. This shall also apply to any hidden defect detected later with respect to the time of detection. Warranty claims cannot be asserted if you fail to comply with your duty to inspect and notify us of a defect. In the event of any defect, we shall at our option make subsequent improvement or substitute delivery (supplementary performance). In the case of subsequent improvement, we shall not have to bear the additional costs caused by the goods having been brought to a place other than the place of fulfillment, unless where such transfer is in compliance with the intended use of the goods. If supplementary performance fails twice, you shall be entitled at your option to demand abatement or rescind the contract.

9 Liability

Unlimited liability: We shall be liable for wilful intent and gross negligence. In the event of slight negligence, we shall be liable in accordance with the provisions of the product liability act and for any damage caused by injury to life, body or health of any person. Limitation of liability: Apart from that, we shall be liable in any case of slight negligence only for a breach of a material contractual obligation, i.e. a contractual obligation fulfillment which enables the proper performance of the contract in the first place and on which the contractual partner may typically rely. This limitation of liability shall also apply for the benefit of our vicarious agents.

10 Final provisions

Should any of the provisions of these General Terms and Conditions be or become invalid, this shall not affect the validity of the remaining provisions. Should any provision which is actually necessary not be contained in the contract concluded between you and us or in these General Terms and Conditions, the parties hereto undertake to agree upon a valid provision which they would have agreed, taking account of their commercial goals, if they had realised the gap.

11 Law and jurisdiction
