- Stackable
- Great material mix

Chair series AMELIA

Outdoor chair in an attractive material mix. With seat made of Batyline® fabric and backrest made of natural-looking Rope wickerwork. These materials make the chairs durable, UV-resistant and allow them to dry quickly - ideal for use in the garden or on the terrace! Very comfortable thanks to the soft seat and ergonomically curved backrest: No additional seat cushion required. Incl. exchangeable plastic glides.

Material frame: Aluminum with high-quality powder coating.
Weatherproof, UV-resistant, stackable and lightfast for outdoor use!

Individual design through a modern material mix for every season and weather! Combine the frames made of absolutely weather-resistant, galvanized and powder-coated steel with the table and bench tops. These consist of high-quality compact laminate in modern and easy to clean decors. The upper side of the top is divided by narrow milled sections, resulting in a harmonious appearance. The benches can be pushed under the tables to save space and can also be linked theft-proof. Mounting material for the table top is included in the frame.

Weatherproof! Individually combinable!

Furniture outdoor

High-quality eucalyptus wood

9

10

Furniture series TOLMINA

Solid wood outdoor furniture made of high-quality eucalyptus wood. The surface is well protected with a special varnish for all year outdoor use. Due to the matt finish in the color tobacco the surface looks very natural and of high quality. The panels of the bench are slightly inclined inwards, creating an ergonomic sitting feeling. Floor unevenness can be easily compensated by adjustable feet.

Easy to clean! Suitable for outdoors!

AVENTURO – combine individually

Serving trolley AVENTURO

Such a serving trolley as AVENTURO convinces in design and function! With its high-quality frame made of 1.2 mm thick, matt powder-coated aluminum and shelves made of robust plastic, it is extremely stable, UV and weather-resistant and extremely easy to clean. On its 2nd and 3rd floor, sturdy cross struts (included in the scope of delivery) can be inserted to safely transport bottles, glassware, crockery, cruet stands and much more. In addition, various GN containers made of different materials and a cutlery holder can also be transported with a perfect fit. This makes this serving trolley highly flexible and is the perfect everyday support for everyone. Frames and shelves can be individually combined in color with many of our existing chairs and tables. AVENTURO is therefore the best choice for your modern indoor and outdoor ambience.

Material: Matt powder-coated aluminum, shelves made of plastic in wood look, cutlery holder made of polypropylene.

Suitable for outdoors! 3-year availability guarantee!

Lounge series COMBINE

This lounge series is made of high-quality brand wickerwork and can be combined indoors and outdoors to the maximum. Especially durable and UV-resistant this series offers a lot of advantages: The base element is the basic module for all shapes. With our row connector you can connect it to your lounge or couch as you wish. Up to 3 side elements can be attached to each base element. The base element can also be used in conjunction with our table top as a lounge table. The stable aluminum frame stands on high-quality feet with stainless steel panels. For a lounge corner, please always order a back cushion and a side cushion.

Material: Aluminum frame with high-density polyethylene wickerwork. Table top: HPL laminate.

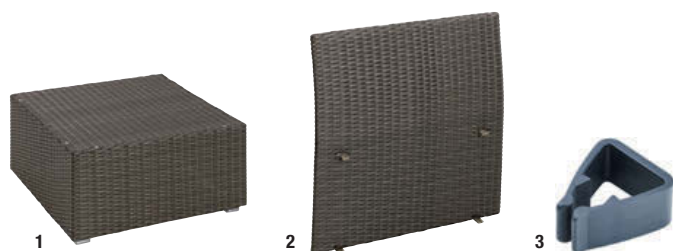

Durable and UV-resistant! Weatherproof! Legs in stainless steel! Individually usable!

The matching cushion box MALACCA can be found at

Lounge series LIKA

Making it wonderfully comfortable for your guests is now even easier: Lounge furniture LIKA consists of three individual elements that can be quickly and easily combined into a complete lounge world. The rounded wickerwork looks elegant and trendy at the same time and can be combined with the cushions of the existing lounge COMBINE. LIKA is also supported by the fact that all elements are stackable thanks to a cut-out in the seat, which makes winter storage much easier. The height of the stable feet simplifies cleaning under the seats and the element without backrest can be used both as a table and as a stool. LIKA is a very good choice if you are looking for beautiful and highly functional lounge furniture.

Material: Aluminum frame with polyethylene wickerwork. UV-resistant! Easy to clean! Stackable!

Chair series RIMALIA

A perfect combination of modern design and high-quality workmanship! The frame of these chairs looks like precious wood, but is made of powder-coated aluminum. This makes the chairs not only lightweight, but also robust and weatherproof - making them ideal for outdoor catering. The seat and backrest are made of weatherproof plastic fabric. The slightly wider seat of the lounge enables ergonomic sitting. Practical: Due to their low weight, all models are stackable and can be stored in a space-saving manner. Plastic glides on the legs protect the floor.

Material: Aluminum, powder-coated. Plastic.
Weatherproof! Stackable!
3-year availability guarantee!

Chair
ALICANTE
54⁹⁹

Teakwood series ALICANTE

We offer high quality chairs, benches and the matching table made of plantation teakwood. Teak is considered to be particularly weatherproof, but after a certain time it forms a silvery shiny patina. This is completely natural and does not represent a deficiency. If you want to keep the original color of your teak furniture permanently, it is best to treat it once a year with our teak care kit.

Weatherproof! Chair and table foldable!

LED sunshade lighting
77⁹⁹

LED sunshade lighting

This light can be easily and quickly installed with the supplied mounting material to every sunshade. The two LED strips with extra bright light never lets your guests sit in the dark. The outdoor suitable supply cable has a length of 15 m and can easily be removed to protect the connections against moisture due to heavy rain. The LED strips as well as the on/off switch are fastened with velcro straps and do not interfere with the closing or opening of the sunshades. Connected load 230 V. Supplied with LEDs of energy efficiency class A.

Create your separation system in 3 steps!

Outdoor separation system CAYA

You want to separate your outdoor area from the street or from other places? This is easily achieved with this easy-care, high-quality, robust and height-adjustable separation system. It is versatile and offers first-class wind, noise and dust protection. The easy construction works by feet, with or without anchoring in the ground. Individual shapes with adjustable connector elements, different sizes and wall elements that can be labelled with chalk markers offer a lot of creative freedom. Delivery within 5 weeks ex works.

Material walls: Powder-coated aluminum and and safety glass; **Material feet:** Galvanized steel; **Material connector elements:** Powder-coated aluminum.
